**Subject: Community Meeting - Project Presentation of New Buried 400kV Circuit - Torness to Branxton Sub-station.**

*Dear Sir/Madam,*

I am writing to invite you to a project presentation on the installation works that are going to be carried out for the new 400kV buried electrical circuits from Torness Nuclear Power Station to Branxton Sub-station. The presentation will take place at 1830hrs on Thursday 25<sup>th</sup> February 2016 at Innerwick Village Hall, Barns Ness Terrace, Dunbar, EH42 1SE.

The presentation will inform you why the cable installation works are being carried out and cover an overview of the project that will include all the works that will have an impact on the surrounding area i.e. road closures and diversion routes etc. The presentation will take about 15 minutes with an opportunity at the end to ask any questions or to raise any concerns you may have.

We will keep you regularly updated on the project works with regular letter drops. If you do have any questions in the meantime please contact SPEN Community Relations Team by calling Mr Colin Wylie on Mob: 07516 461129 or by emailing [CommunityRelations@spenergynetworks.co.uk](mailto:CommunityRelations@spenergynetworks.co.uk)

If you do have any local issues that require resolving as the project proceeds, please call into the Site Compound at Innerwick Road or alternatively my mobile and email details are below.

Yours sincerely,

Jason Callaghan BSC (Hons), MAPM, MCIQB  
Prysmian Project Manager  
Torness HV Project
